

SASL Welcomes New Corporate Member:

Lucerne enjoys 130 grams of love!

CarmensCupcake is the first address for those who are addicted to the sweet treat of the seductive and only 130 grams heavy Cupcakes! In Meggen, for one year now, CarmensCupcake has been offering workshops to learn how to prepare the most delicious cupcakes, cakes and cake pops that turn every event into a special party.

These workshops are offered so that everyone can learn how to work with the delightful frosting and toppings and make the wonderfully decorated tarts at home.

Once again, a trend from the USA, where cupcakes have been baked for over a hundred years and have been in fashion since the fifties, comes to us. Through her successful business, Carmen Lippuner-Thaddey, the person behind this brainchild, has shown us that these creatively and professionally decorated cupcakes are not only appreciated in Hollywood. "For me, cupcakes are 130 grams of love that decorate our daily lives and simply get everyone in a great mood! This is also reflected in my workshops, where we don't solely work, but have a lot of fun together creating sweet works of art", says the engaging entrepreneur.

You can find more information about CarmensCupcake as well as information on how to register for the creative workshops by visiting the website or contacting:

Carmen's Cupcake, Carmen Lippuner-Thaddey, Riedweg 5, 6045 Meggen

Bill & Charisse Acklin

Bill and Charisse are Americans who moved to Lucerne in November 2013. Bill is a Quality Manager at Roche in Rotkreuz, and Charisse recently retired from her university position in Indianapolis, Indiana. She is currently taking care of Peggy, their Boston Terrier. Their hobbies include wine tasting and travel, reading, auto sports, and Bill also enjoys running. They have two daughters who live in the United States.
